First Location: December 2009
First Location:
May 1st, 2010
Candy board from previous winter
Sticks were under candy board to assure proper bee space and to prevent board from sagging.
Looking for over-wintered Queen
Removed with 2 frames of brood and two shakes of bees and relocated over 2 miles away.
Notching:
Performed on 6 frames in cell builder (after queen removed)
Notching 7 at a time
One week later:
May 8,
2010
Looking for Queen Cells
Bees for Spring Starts
Making Spring Starts
