

Parade of Flowers and Honey Flows:

*A tribute to the honeybees for the
nourishment they bring to our table
and the beauty they bring to the
lands*

Blackberry

Star Thistle

Rose of Sharon

Aster

Sunflower

Aster

Purple Coneflower

New England Romance Aster

Goldenrod

Honeybee on leaf

OTS Frees the Bees

OTS colonies of strength and health
Turn flower nectar into wealth

They grow the health of flowers, too,
Pollinating the season through

OTS queens and bees are free
Now beekeepers are put at ease

No longer do they have to fret
Now that the mite is not a threat

Beekeeping now is happy money
There's so much honey it's almost funny

Happiest of all are the honeybees
About as content as they used to be

An OTS hive's not the bee tree of old
But in it you'll find the same sweet gold
